**ABOUT US**

# Helios Global Indonesia

Helios Global Indonesia is an Indonesian export company built to be a reliable, long-term sourcing partner for international buyers. We work directly with production facilities and trusted supplier partners to bring premium natural commodities to distributors, wholesalers, and private-label brands worldwide.

Starting with coconut charcoal briquettes, we are expanding into sustainable coconut-based commodities including coco peat and coco fiber, while building a wider product roadmap for selected Indonesian agricultural exports.

## Why Buy From Helios Global Indonesia

*"We solve the problems importers fear most: inconsistent quality, cracked briquettes, and unreliable delivery."*

**100 MT+**

MONTHLY CAPACITY

**>6,000**

## CHARCOAL

Shisha & hookah, BBQ briquettes, coconut shell & wood charcoal, and custom OEM orders.

## COCONUT DERIVATIVES

Coco peat growing medium and durable coco fiber for horticulture and industry.

## FRESH PRODUCE

Export-grade Indonesian fruits and vegetables (coming soon).

CHARCOAL & ENERGY

# Shisha & Hookah Charcoal

AVAILABLE

Our premium coconut shell cube briquettes are engineered specifically for hookah and shisha, delivering consistent, long-lasting heat with minimal ash and no unwanted odor. Made from selected Indonesian coconut shells.

## Technical Specifications

|                  |                             |
|------------------|-----------------------------|
| Material Base    | 100% coconut shell charcoal |
| Moisture Content | 6 to 7%                     |
| Volatile Matter  | 15 to 18%                   |
| Ash Content      | 1 to 2.5%                   |
| Fixed Carbon     | 70 to 77%                   |
| Calorific Value  | 5,000 to 6,000 kcal/kg      |
| Shapes           | Cube, customizable          |
| Burning Time     | Long, consistent burn       |

### Key Advantages

- Consistent, long-lasting heat
- Very low ash, clean white/silver residue
- Smokeless and odorless
- Private label (OEM) available

### Applications

- Hookah lounges
- Distributors
- Wholesalers
- Private-label brands

### Packaging & Loadability

Inner 0.5/1 kg boxes. Master carton 10/20 kg, customizable. Loadability approx. 18 to 20 MT per 20ft container.

HS CODE 4402.90 · MOQ 1 x 20ft container (negotiable for first trial)

COCONUT DERIVATIVES

# Coco Peat, Coir Pith

AVAILABLE

Premium low-EC coco peat, washed, buffered, and compressed into blocks or 5kg bricks. High water retention and excellent aeration make it a superior sustainable growing medium for horticulture and hydroponics.

## Technical Specifications

|                  |                                   |
|------------------|-----------------------------------|
| Form             | 5 kg blocks / bricks / grow bags  |
| EC Level         | Low, <0.5, or washed on request   |
| Moisture Content | Max 15 to 20%                     |
| Expansion Ratio  | Up to approx. 15 L per 650g brick |
| Fiber Content    | Controlled / graded               |

### Key Advantages

- Low EC washed and buffered options
- High water-holding capacity
- Consistent expansion ratio
- Sustainable and renewable substrate

### Applications

- Horticulture & nurseries
- Hydroponics
- Soil conditioning
- Mushroom cultivation

### Packaging & Loadability

5 kg compressed blocks, palletized. 650 g bricks in cartons. Loadability approx. 20 to 22 MT per 40ft HC container.

COCONUT DERIVATIVES

# Coco Fiber, Coir Fiber

AVAILABLE

Long, resilient coir fibers extracted from coconut husks and graded for consistent quality. A durable, biodegradable raw material for mattress, automotive, geotextile, and horticultural industries.

## Technical Specifications

|                  |                             |
|------------------|-----------------------------|
| Form             | Compressed bales            |
| Fiber Length     | Graded on request           |
| Moisture Content | Max 18%                     |
| Impurity Level   | Low, cleaned                |
| Bale Weight      | Approximately 110 to 120 kg |

### Key Advantages

- High tensile strength and durability
- Cleaned and graded fiber length
- Biodegradable and eco-friendly
- Compressed bales for efficient shipping

### Applications

- Mattress & upholstery
- Ropes, mats & brushes
- Erosion control & geotextiles
- Horticulture

### Packaging & Loadability

Compressed bales approx. 110 to 120 kg. Loadability approx. 10 to 12 MT per 40ft container.

## Technical Specifications

|                    |                                         |
|--------------------|-----------------------------------------|
| Development Status | In development, pre-orders welcome      |
| Handling & Quality | Cold-chain and phytosanitary compliance |
| Grading Standard   | Export-grade sorting, planned           |
| Availability       | Seasonal                                |

### Key Advantages

- Export-grade sorting and grading, planned
- Cold-chain and phytosanitary compliance
- Seasonal availability
- Pre-registration welcome

### Applications

- Wholesale importers
- Retail distribution
- HoReCa supply

### Packaging & Loadability

To be defined per commodity and destination.

## HOW WE WORK

# Ordering & Export Process

01

## Inquiry & Spec Fit

Share your target product, specifications, packaging preference, destination port, and expected volume. We confirm availability, suitable grade, and commercial fit.

02

## Sample Evaluation

Qualified buyers may request free samples for evaluation. Laboratory testing can be arranged on request for batch verification.

03

## Contract & Production

After sample approval, we confirm price, Incoterms, payment terms, production schedule, packaging artwork, and inspection requirements. Available terms include FOB, CIF, CNF-CFR, or EXW, with T/T or L/C.

04

## Shipping & Delivery

We coordinate export documentation, container loading, shipping schedules, and delivery communication to help buyers plan inventory reliably.

## Incoterms & Terms

- ✓ Incoterms FOB, CIF, CNF/CFR, or EXW.
- ✓ Payment T/T or irrevocable L/C at sight.
- ✓ Documentation: Commercial Invoice, Packing List, Bill of Lading, Certificate of Origin, MSDS.

*Positioning note: Helios Global Indonesia is an Indonesian export company working directly with production facilities and trusted supplier partners.*

## GET IN TOUCH

## Contact Our Export Team
